Single premium tax deferred fixed annuity

Current effective annual interest rate as of 10/5/2026

Guaranteed interest rate term[1]		Interest rate guarantee[2]
Three-year with market value adjustment (MVA)	Premium of $100,000 or more	5.60%
	Premium of less than $100,000	5.25%

Guaranteed minimum interest rate is 0.25% [1]

[1] A market value adjustment (MVA) may apply to withdrawals before the end of the guaranteed rate term. The adjustment can either increase or decrease the withdrawal amount depending on the current interest rate environment at the time it is incurred. MVA does not apply to withdrawals representing free withdrawal amounts, Required Minimum Distributions, annuitization or death benefit.

[2] This is an annual effective rate. Interest is credited to the contract daily (based on a 365-day year) to achieve an annual yield that's equal to the declared rate. The money must remain in the annuity (without any withdrawals) for the entire year to achieve the full rate. The initial interest rate on the single premium is guaranteed for three years. When the initial interest rate period expires, future interest rates will be declared annually, based on current market conditions. Current initial interest rate is subject to change at any time before the contract is issued. Withdrawals above the penalty-free amount are subject to a declining withdrawal charge schedule for three years (8%, 7%, 7%, 0%) and a market value adjustment during the guaranteed rate period. Withdrawal charges are applied as a percentage of the amount withdrawn, before application of the MVA, in excess of the free withdrawals and decline over three years from issue date. A 10% federal early withdrawal tax penalty may apply if taken before age 59½. Partial withdrawals may reduce benefits and contract value.

A fixed annuity is a contract between you and an insurance company that, in exchange for your premium (earning a fixed rate of interest), offers a stream of guaranteed income payments.

Annuities are long-term products designed for retirement.

Retirement accounts such as IRAs can be tax deferred regardless of whether or not they are funded with an annuity. The purchase of an annuity within an IRA does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.
