A fixed indexed annuity is intended for retirement or other long-term needs. It is intended for a person who has sufficient cash or other liquid assets for living expenses and other unexpected emergencies, such as medical expenses. A fixed indexed annuity is not a registered security or stock market investment and does not directly participate in any stock or equity investments, ETF or index.

Lincoln fixed indexed annuities (contract form ICC1515-619 and state variations) are issued by The Lincoln National Life Insurance Company, Fort Wayne, IN, and distributed by Lincoln Financial Distributors, Inc., a broker-dealer. **The Lincoln National Life Insurance Company does not solicit business in the state of New York, nor is it authorized to do so. Contractual obligations are subject to the claims-paying ability of The Lincoln National Life Insurance Company.**

This annuity does not participate directly in any stock or equity investment and does not include the purchase of shares of stock or an index. The indexed accounts use an outside benchmark for determining indexed account earnings. Any dividends paid on the stocks on which the benchmark is based do not increase the annuity earnings. All payments and values provided by the contract, when based on performance of the indexed account, are not guaranteed to be equivalent to the benchmark. The composition of the benchmark and the methodology used by the benchmark to calculate its performance are not guaranteed and may be changed at any time by the benchmark provider.

The exact terms of the annuity are contained in the contracts and any attached riders, endorsements and amendments, which will control the issuing company's contractual obligations. For more information about the annuity, please also read the Disclosure Statement and Fact Sheet, or contact your representative.

Income taxes are due upon withdrawal and if withdrawn before age 59½, an additional 10% federal tax may apply. Withdrawals and surrenders may be subject to surrender charges and a Market Value Adjustment.

There is no additional tax-deferral benefit for contracts purchased in an IRA or other tax-qualified plan, since they are already afforded tax-deferred status.

The Capital Group Dividend Value exchange-traded fund (CGDV ETF) serves as the benchmark used to calculate indexed interest for the associated indexed accounts.

Capital Client Group, Inc. is the distributor for Capital Group Dividend Value ETF (CGDV). Capital Group exchange-traded funds (ETFs) are actively managed and do not seek to replicate a specific index. ETF shares are bought and sold through an exchange at the then current market price, not net asset value (NAV), and are not individually redeemed from the fund. Shares may trade at a premium or discount to their NAV when traded on an exchange. There can be no guarantee that an active market for ETFs will develop or be maintained, or that the ETF's listing will continue or remain unchanged. All Capital Group trademarks mentioned are owned by The Capital Group Companies, Inc., an affiliated company or fund. Capital Group makes no representations or warranties, express or implied, to the owners of any products offered by The Lincoln National Life Insurance Company (Lincoln) or any member of the public regarding the advisability of purchasing any product or service offered by Lincoln or the results to be obtained from any product or service offered by Lincoln. An annuity with an indexed account that tracks the performance of an actively managed ETF does not offer direct investment in the ETF. Instead, it credits indexed interest based on a crediting strategy and the returns of the ETF. Dividends from the ETF or its underlying stocks do not contribute to indexed interest. Indexed interest is determined by the indexed crediting and is not guaranteed to match the performance of the ETF.
