The Initial Purchase Payment Interest Rate in effect on the Contract Date will apply to the initial Purchase Payment during the guaranteed period. Tax-qualified contracts such as IRAs, 401(k)s, etc. are tax-deferred regardless of whether or not they are funded with an annuity. If a customer is considering funding a tax-qualified retirement plan with an annuity, they should know that an annuity does not provide any additional tax-deferred treatment of earnings beyond the tax-qualified plan or program itself. However, annuities do provide other features and benefits such as death benefits and income payment options.

Contracts not owned for the benefit of natural persons, e.g., contracts owned by trusts, corporations or certain other entities, are generally not treated as annuities for federal income tax purposes and any interest are taxed as ordinary income in the current year. Exceptions may apply. Prospective Owners that are not natural persons should consult their tax professionals before purchasing the Contract.
